The forecast above is based on information available on the issuing date of this report. Accordingly, the final results may change due to various factors.

*Indication of implementation status of audit procedures
This report is exempt from the audit review procedures based on the Financial Instruments and Exchange Act.
Audit procedures based on the Financial Instruments and Exchange Act have not been completed at the time of disclosure of this report.

*Explanation on the proper use of the forecasts
The above forecast is based on the information available at the issuing date of this report. Accordingly, the final results may change due to various factors. For matters pertaining to the forecasts, please refer to 1. Financial Results (1) Analysis of Financial Results [Full-year Forecast] on Page 4.

* Supplemental Documents for the FY2011 was disclosed on the TD-net (Timely Disclosure network) on the same day.
1. Financial Results
(1) Analysis of Financial Results

[Consolidated Results of the Year ended March 31, 2012]

During the current fiscal year, despite production activities and personal consumption gradually recovering from the stagnation resulting from the Great East Japan Earthquake and certain movements at the end of the fiscal year suggesting correction toward a weaker yen, the Japanese economy continued to witness uncertainty prevail, as a result of concerns over the electricity supply and anxiety toward radioactive contamination, in addition to the effects of the flooding in Thailand.

In terms of the global economy, while Asia enjoyed continuing economic growth in China, its growth rate seemed to be slowing down somewhat. In the U.S., personal consumption has been picking up, which has led to a moderate economic recovery. Meanwhile, in Europe the fiscal crises of countries such as Greece and Italy continue to be the subject of grave concern.

Under these circumstances, the Company and its corporate group made a concerted effort to promote its medium-term management plan, the “New TGL Plan” (True Global Links), and to reinforce its quality assurance system so as to ensure the delivery of safe and secure products to all customers. However, despite achieving certain results including the expansion of the aquaculture business in Japan and our entry into the European market, as a result of insufficient returns on major investments and delays in responding to changes in the environment following the Lehman crisis, we fell considerably short of our targets under the New TGL Plan.

As for the consolidated results for the fiscal year, we recorded sales of 538,030 million yen, up 43,735 million yen or 8.8% year-on-year, operating income of 9,553 million yen, up 1,464 million yen or 18.1% year-on-year, and ordinary income of 8,404 million yen, up 2,129 million yen or 33.9% year-on-year.

In terms of extraordinary income or loss, extraordinary loss in the amount of 7,608 million yen was recorded to account for losses resulting from the withdrawal from the fishery business in Argentina and the aquaculture business in Indonesia. As a consequence, net income came to 2,006 million yen (up 2,927 million yen year-on-year) for the current fiscal year.

Business operations are summarized as follows:

i) Marine Products Business
The Marine Products segment is engaged in the fishery, aquaculture, and seafood processing and trading businesses.

<Overview of the Current Consolidated Fiscal Year>
In the Marine Products business, sales in the amount of 223,807 million yen (up 35,234 million yen year-on-year) and operating income of 1,251 (up 1,081 million yen year-on-year) were recorded.

Fishery Business: Both revenue and income fell from previous year levels.
• In Japan, strong catches continued throughout the year.
• In South America, the catch quota for major fish species was reduced in Chile; and fish catches were down in Argentina while the number of days of operation was also shortened.

Aquaculture Business: Both revenue and income increased year-on-year.
• In Japan, sales volume in the yellowtail aquaculture business increased, while fish prices rose in the tuna aquaculture business.
• In Asia, efforts to continue the shrimp farming business in Indonesia failed to produce results.
• In South America, sales volume increased and fish prices maintained high levels in Chile’s salmon/trout aquaculture business.

Seafood Processing and Trading Business: Both revenue and income increased year-on-year.
• In Japan, prices of fish paste (surimi) fell for Nippon Suisan Kaisha, Ltd., while sales of salmon/trout, tuna and Alaska Pollack roe were strong.
• In North America, the catch quotas for Alaska Pollack increased, which resulted in increased production of fish paste (surimi) and fillets, and sales of Alaska Pollack roe were also strong.
• In South America, Netuno International S.A. (Note 1), which became a consolidated subsidiary from the previous third quarter, experienced delays in structural reforms, which in turn resulted in major decreases in income.
• In Europe, Nordic Seafood A/S (Note 2), which became a consolidated subsidiary from the previous third quarter, performed strongly.

ii) Foods Business
The Food Products segment is engaged in processed foods and chilled foods businesses.

<Overview of the Current Consolidated Fiscal Year>
In the Food Products business, sales in the amount of 259,079 million yen (up 4,679 million yen year-on-year) and operating income of 3,568 million yen (down 752 million yen year-on-year) were recorded.

Processed Foods Business: Revenue increased but income decreased year-on-year.
• In Japan, although the Onagawa Plant and other sites were affected by the Great East Japan Earthquake, the Nissui Group strived to recover the product supply through the transfer of production to other plants. The rising demand for eating in and prepared deli foods to be eaten at home resulted in strong sales of frozen prepared foods for household use, such as yaki onigiri and cream croquettes, and those for commercial use, such as processed chicken products and gratins, while sales of fish sausage and ham declined.
• In North America, companies engaged in frozen prepared foods for commercial use performed poorly due to the prolonged downturn in demand in the food service industry.
• In Asia, income decreased as production fell in the food processing company in China and unit labor costs rose.
• In Europe, production volume increased and sales were strong at a frozen prepared foods company in France.

Chilled Foods Business: Both revenue and income increased year on year.
• Revenue increased as sales of noodles and chilled lunch boxes grew at convenience stores.

iii) Fine Chemicals Business
The Fine Chemicals segment is engaged in the manufacture and sale of pharmaceutical raw materials, functional raw materials (Note 3), functional foods, pharmaceuticals, and diagnostic products.

<Overview of the Current Consolidated Fiscal Year>

In the Fine Chemicals business, sales in the amount of 25,993 million yen (up 775 million year-on-year) and operating income of 6,116 million yen (up 828 million yen year-on-year) were recorded.

Fine Chemicals business: Both revenue and income increased year-on-year.

* In Japan, strong sales of pharmaceutical raw materials and functional raw materials were posted for Nippon Suisan Kaisha, Ltd. In addition, the diagnostic medicines business also performed well for Nissui’s consolidated subsidiary, Nissui Pharmaceutical Co., Ltd.

iv) General Distribution Business

The General Distribution segment is engaged in the cold storage, transportation and customs clearing businesses.

<Overview of the Current Consolidated Fiscal Year>

In the General Distribution business, sales in the amount of 12,448 million yen (up 738 million year-on-year) and operating income of 1,710 million yen (up 165 million yen year-on-year) were recorded.

General Distribution business: Both revenue and income increased year-on-year.

* In the cold storage business, decreases in revenue in the northeastern part of Japan due to the effects of the Great East Japan Earthquake were offset by increases in the Tokyo metropolitan and Kansai areas, resulting in an overall increase in sales.

(Note 1) The company was incorporated in May 2010 and started operation in September of the same year. It is headquartered in the city of Recife, Pernambuco state, Brazil. It is engaged mainly in aquaculture and the manufacture and distribution of precooked frozen seafood.

(Note 2) The company is headquartered in Hirtshals, Denmark and engaged in the distribution of marine products and processed marine products all over Europe with the exception of Spain and Portugal. Formerly accounted for under the equity method, the company became a consolidated subsidiary in August 2010 following the acquisition of its shares by Nissui Group.

(Note 3) Functional raw materials consist mainly of EPA, DHA, glucosamine, cholesterol, and orange roughy oil, which are used primarily as ingredients in foods and cosmetics.

[Full-year Forecast]

The Company, celebrating its 100th anniversary in the previous year and in order to connect to the next 100 years, has created and will promote the new medium-term management plan, "Mid-term Management Plan 2014 (MVIP)," by positioning the concept of “Now is the time to go back to the basics of Nissui" at the center of the plan, and emphasizing the key points of responding to future changes in lifestyles and consumption structure and leveraging the functions of the Company and its corporate group to answer to the expectations of customers around the world.

* Note: MVIP
1) Make value through Innovative Plan
2) Most Valuable Impressive Player

As for our corporate social responsibility, we will make sure that the Code of Ethics (our declaration of compliance with laws and regulations and corporate stance) and the Quality Assurance Code (our commitment to providing high-quality, safe products) are thoroughly known and strictly enforced. We will also continue to enhance efforts in tackling environmental problems, including the strict enforcement of the Environment Code (considerations to utilize marine resources in a sustainable manner and to coexist harmoniously with nature). The Risk Management Committee will play a central role in enhancing risk management in relation to the management of Nissui.

Based on the above, our full-year forecast is 570 billion yen in sales, 13.5 billion yen in operating income, 12.5 billion yen in ordinary income, and 6 billion yen in net income.

Sales and operating income figures for the reported segments are as follows:

(2) Analysis of Financial Position

State of assets, liabilities and net assets

Current assets increased by 1.7% since the end of the previous consolidated fiscal year, to 194,149 million yen, mainly as the result of a 3,432 million yen increase in notes and accounts receivable.

Fixed assets decreased by 1.0% from the end of the previous consolidated fiscal year, to 206,736 million yen, mainly as the result of a decrease in property, plant and equipment by 3,850 million yen, intangible assets by 842 million yen and 2,659 million yen increase in investment and other assets. Consequently, total assets increased by 0.3% from the levels at the end of the previous consolidated fiscal year, to 400,885 million yen.

Current liabilities increased by 3.2% from the end of the previous consolidated fiscal year, to 196,249 million yen, mainly as the result of an increase in accrued expense by 5,097 million yen, allocation of provision for loss on business liquidation by 2,053 million yen and 7,876 million yen decrease in short-term loans payable.

Noncurrent liabilities increased by 1.3% from the levels at the end of the previous consolidated fiscal year, to 140,704 million yen, mainly due to an increase in long-term loans payable by 1,051 million yen. As a result, total liabilities increased by 2.4% from the end of the previous consolidated fiscal year, to 336,935 million yen.
Total net assets decreased by 6,874 million yen from the end of the previous consolidated fiscal year, to 63,932 million yen. This was due mainly to a decrease in retained earnings, by 2,764 million yen for dividend payments, and a decrease in the foreign currency translation adjustment by 3,144 million yen.

Status of Cash Flow
Cash and cash equivalents fell 2,201 million yen from the end of the previous consolidated fiscal year, to 14,981 million yen.

Net cash provided by (used in) operating activities were a net inflow of 23,820 million yen, attributed mainly to net income before taxes of 1,481 million yen, depreciation and amortization of 16,786 million yen, loss on liquidation of business of 4,143 million yen, an increase in notes and accounts receivable-trade by 5,392 million yen, inventories by 5,579 million yen, accrued expenses by 4,743 million yen and in notes and accounts payable-trade by 3,281 million yen.

Cash flows from investing activities amounted to a net outflow of 16,715 million yen. This was due mainly to an outlay of 12,241 million yen for the acquisition of property, plant and equipment, including manufacturing facilities for food plants, as well as an outlay of 3,236 million yen for purchase of intangible assets.

Cash flows from financing activities resulted in a net outflow of 9,001 million yen, consisting primarily of a 7,996 million inflow from short-term loans payable and an inflow of 22,830 million yen from long-term loans payable, which were offset partially by a repayment of long-term loans payable in the amount of 19,736 million yen.

Cash flow-related indices of Nissui Group are as follows:

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Ratio of shareholders’ equity on a market value basis (%)</td>
<td>26.0</td>
<td>18.4</td>
<td>19.5</td>
<td>16.0</td>
<td>19.4</td>
</tr>
<tr>
<td>Ratio of interest-bearing liabilities to cash flows (Annual)</td>
<td>11.4</td>
<td>-</td>
<td>6.6</td>
<td>44.5</td>
<td>10.1</td>
</tr>
<tr>
<td>Interest coverage ratio (Times)</td>
<td>3.0</td>
<td>-</td>
<td>9.0</td>
<td>1.6</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Ratio of shareholders’ equity = Shareholders’ equity / Total assets  
Ratio of shareholders’ equity on a market value basis = Market capitalization of stock / Total assets  
Ratio of interest-bearing liabilities to cash flows = Interest-bearing liabilities / Cash flows  
Interest coverage ratio = Cash flows / Interest payments

(Notes)
1. Each index was calculated on the basis of consolidated financial data.
2. The market capitalization of stock was calculated based on the number of shares issued and outstanding without including treasury stock.
3. Cash flows are based on operating cash flows.
4. Interest-bearing liabilities refer to all liabilities declared in the Consolidated Balance Sheet for which interest is paid.

(3) Basic Policies for Profit Sharing and Dividends for the Current and Next Terms
As for profit sharing at the Company and its corporate group, our basic policy is to pay dividends to shareholders according to the consolidated business performance of the Company and its corporate group in tune with changes in the business environment, while taking into consideration enhancing the corporate constitution from a long-term and comprehensive perspective and reserving sufficient retained earnings to prepare for the rolling out of promising business opportunities in the future.

Accordingly, we decided on a payout of 5 yen per share as the term-end dividend. By adding the interim dividend of 5 yen per share already paid out, the annual dividend will be 10 yen per share.

The proposal of this term-end dividend was resolved at the Meeting of the Board of Directors held on May 15, 2012. Upon the approval of the amendment proposal of the Articles of Incorporation in relation to the enforcement of the Company Law at the 91st regular General Meeting of Shareholders to be held on June 28, 2006, matters related to dividends of retained earnings, stipulated in the Company Law, Article 459-1, will be determined by the resolution of the Meeting of the Board of Directors subject to the Articles of Incorporation.

(4) Risks Involved in the Business, etc.
There are various risks inherent in the business fields in which the Company and its corporate group operate. The Company and its corporate group strive to prevent and hedge against these risks so as to reasonably reduce them. Nonetheless, the business performance and financial position of the Company and its corporate group may be materially affected in the event one of the following situations develops:

1. An outbreak of a problem relating to food safety
2. Massive changes in the marine foods market
3. An outbreak of fish disease in the aquaculture business
4. Drastic fluctuations in raw material prices, including the prices of fuel, main and auxiliary raw materials, and equipment/supplies
5. Occurrence of terrorist attacks or uprising of conflicts, epidemic of infectious diseases, earthquakes, typhoons, and other natural disasters in the areas where the Company and its corporate group conduct business.
6. Amendments and new enactments of legal restrictions and regulations in Japan and abroad
7. Massive fluctuations in the exchange rates
8. Effects of the application of impairment accounting
9. Effects of share price fluctuations, etc., on the assets held by the Company
10. Risks relating to information systems
11. Environmental risks
12. Risks of litigation
13. Risks relating to securing and developing human resources
14. Changes in the climate surrounding the Company’s businesses
15. Risks relating to the management of receivables
16. Risks of natural disasters

2. Management Policies
(1) Basic Management Policies of the Company
The Company and its corporate group have conducted its business activities with a basic philosophy that has never changed since its establishment: contributing to the society while continuing to create value.

In order to fulfill this philosophy, the Company aims to behave with integrity as a company and as individuals, with the aim to deliver carefully selected ingredients and valuable goods and services to customers’ dining tables by placing emphasis on technology and research and development, by aggressively adopting ever-evolving information technology, and by developing a supply chain of marine products taking advantage of global networks. This is the tenet of the Company’s basic management policy.
Based on such a spirit, which has been passed on from generation to generation as a corporate gene dating back to its establishment, the Company and its corporate group strive to further improve the qualities of its corporate group as a whole in such a way as to enable new businesses to achieve substantial growth, while also working to improve the profitability of its business structure so that we will continue to have stakeholders’ support in the future.

(2) Tasks to Be Addressed by the Company
During fiscal year 2011, which marked the final year of the medium-term management plan, the “New TGL Plan” (True Global Links), the Company and its corporate group endeavored to further raise management efficiency of the Company and its corporate group and realize high profitability from the Company’s business structure. With regard to the tasks associated with the shrimp farming business in Indonesia and the fishery business in Argentina, despite efforts to reconstruct the respective businesses by enhancing their business efficiency, in the absence of any prospects for improved profits, we have commenced implementing various measures toward withdrawing from said businesses.

(3) New "Medium-Term Management Plan 2014 (MVIP)" (FY2012 - FY2014)
1) Basic Management Policies
“We will give consideration to the sustainable utilization of marine resources and the preservation of the earth environment, continue to create diverse values from resources, including marine resources, and contribute to the active lives and a future full of hope for the people around the world.”

【5 Basic Strategies】
1. Continue to refine existing businesses and categories that will be of use to customers.
2. Continue to propose new categories that respond to the changes of the customers.
3. Reinforce access to resources by adding purchasing to the existing fishery and aquaculture businesses.
4. Evolve into a value network and increase sophistication.
5. Strengthen cooperation both inside and outside of the Group and reinforce sales capacities in Japan and overseas.

【3 Ways of being of use】
1. Create and propose functional value that is embedded in everyday life.
2. Further deepen coexistence with the environment and society and proactively dispatch various information.
3. Make proposals not only about food but also about what will benefit the mind and body of the customer.

2) Strategies for main businesses
【Marine Business】
While maintaining consideration for sustainability and further refining our access to resources, we intend to transform ourselves into a marine products business targeting the global market with the capacity to create markets that originate from the customer.

【Food Business】
We intend to transform ourselves into a producer that continues to create new and diverse value for the customers based on tastiness and quality.

【Fine Chemical Business】
We will build the foundations for global deployment by aiming to become a “leading company in functional lipids” based on our strengths in pharmaceuticals.

【General Distribution】
We will build a value network that enables both efficiency in logistics and consideration for the environment.

【Global Marketing】
Build a unique mechanism system that exerts a lenient but strong unifying force centered on the Global Links*(Note 1) and Local Links *(Note 2), and evolve into a Global Company.

【Global Management】
Regarding overseas subsidiaries and affiliates, we will strengthen these 2 points in order to bring out the potential of the Group enhancing the corporate value as a whole.

i. Further reinforcement of Corporate Governance and independent management based on "Expansion of profit”.
ii. Establish NGLC Executive Board, formulated to determine and promote plans, proposes important strategies for the entire Group. in addition to NGLC (Nissui Global Links Conference), created to share information between inter-group companies as well as deliberate and decision making organization.

【R&D and processing production strategies】
We will promote innovations and develop proprietary production technology for the sustainable and effective utilization of finite resources.

Also, we will position factories as value centers and achieve both “emphasis on quality” and “cost reductions” through innovation and valuing the opinions of our customers. As for main commercial goods, we will build a stable supply system such as multiple manufacturing bases that can withstand disasters.

【Initiatives toward conserving resources and the environment】
With the full awareness that the business foundations of the Nissui Group are built on nature and living organisms, Nissui will continue to provide grants to institutions involved in the research on sustainability (the Society for Conservation of Fisheries Resources and Marine Environment (Co-FRaME), as well as retain its own specialists on resource management and conduct research on its own. Additionally, policies applicable to the entire Group will be formulated mainly by the Sustainable Officer under the Global Links Sustainable Board (*)).

We will step up the Group’s education toward protecting the earth environment conduct activities to raise awareness and further elevate our activities to reduce the environmental burden. All the plants operated by Nissui will become zero-emission plants. Furthermore, in addition to our proactive downsizing and down-weighting activities, we intend to reduce containers / packaging / waste by 10% (specific consumption) by FY 2014 (compared to FY 2011).

3) Managing index to be targeted
The company and its corporate group is aiming to achieve 600,000 million yen of consolidated net sales and 2,300 million yen in consolidated operating income in FY2014, targeting "Medium-Term Management Plan (MVIP)" (FY2012-FY2014)

(Note 1) Global Links refers to the network of companies that share the Nissui Group vision and work together to create value through win-win relationships.
(Note 2) Local Links refers to the linking of various “Local” functions in order to further evolve the Global Links, thereby realizing the unique performance (competitive edge) of each on the “Local” level.
(Note 3) The Global Links Sustainable Board is a function established to the end of materializing the following principles formulated by the Nissui Group.

(5) Notes on the Premise of Going Concern
Not applicable.

(6) Significant Assumptions Underlying the Preparation of the Consolidated Financial Statements

1. Matters concerning the scope of consolidation
   (a) Consolidated subsidiaries 65 corporations
       (Newly added this fiscal year) 3 corporations
       (Eliminated this fiscal year) 3 corporations

   (b) Nonconsolidated subsidiaries 10 corporations
       All non-consolidated subsidiaries have small total assets, sales, net income and retained earnings, and thus yield no significant impact on the consolidated financial statements.

2. Matters concerning the application of the equity method
   Corporations accounted for by the equity method
   Non-consolidated subsidiaries 8 corporations
   Affiliate corporations 31 corporations
   (Newly added this fiscal year) 2 corporations
   (Eliminated this fiscal year) 3 corporations
   (Eliminated as the result of a disposal)

Investment in the two non-consolidated subsidiaries and one affiliate corporation that were not accounted for by the equity method had immaterial impact on the Company’s net income and retained earnings for the current year. The equity method was not applied for this reason.
The reportable segments of the Company comprise constituent units of the Company for which separate financial information may be obtained. The board of directors examines these segments on a regular basis for the purpose of determining the allocation of management resources and evaluating operating performance. The Company’s business operations involve linking marine resources to the everyday lives of its customers, which is done by formulating comprehensive strategies by product/service both in Japan and overseas.

Therefore, the Company’s segments classified by product/service consist of “Marine Products business,” “Foods business,” “Fine Chemicals business,” and “General Distribution business.”

“Marine Products” include the fishing, aquaculture, purchasing, processing and selling of marine products (fresh/frozen fish, fish meal & fish oil).

“Foods” include the manufacturing and selling of frozen food, shelf-stable foods, and other processed foods.

“Fine Chemicals” include the manufacturing and selling of medical ingredients, health foods, diagnostic medicines, and general pharmaceuticals.

“General Distribution” includes the cold storage and transportation of frozen and refrigerated goods that back up the above businesses. The Company is engaged in the above businesses mainly in the five regions of Japan, North America, South America, Asia and Europe.

The accounting methods used by the reported business segments are generally the same as those described under the “Significant Matters Fundamental to the Preparation of the Consolidated Financial Statements.” Profits of the business segments are operating income-based figures. Intergroup revenues and transfers are valued at prices used in third party transactions.

3. Information of net sales and profit by segments
