2. Reasons for the Differences

As for the Non-consolidated financial results, net income fell short of the previous forecast as a result of recording extraordinary losses, such as the loss stemming from transferring part of the equity interest in Shandong Sanfod Nissui, Ltd. in China and the loss on valuation of investment securities.

As for the consolidated financial results, net income turned out to be below the previous forecast as a result of recording extraordinary losses, including the loss incurred in withdrawing from the business of Leuchtturm Beteiligungs- und Holding Germany AG, in Germany among others, in addition to the Non-consolidated financial results.
