*Indication of implementation status of quarterly review procedures

This report is exempt from the quarterly review procedures based on the Financial Instruments and Exchange Act

Quarterly review procedures based on the Financial Instruments and Exchange Act have not been completed at the time of disclosure of this report

*Explanation on the proper use of the forecasts, and other noteworthy items

The performance forecasts contained in this report are based on information available at the present time and certain premises thought to be reasonable. Accordingly, the final results may change substantially due to various factors. For conditions from which the premises for the forecast were derived and the other noteworthy items relating to the use of the forecasts, please refer to "Qualitative information on the consolidated forecasts of page 3 of the Summary of 2nd Quarter Report for Fiscal Year 2011 (Appendix).

* Support documentation for the 2nd quarter was disclosed on the TD-net (Timely Disclosure network) on the same day

1. Qualitative information for the second quarter of the fiscal year ending March 31, 2012

(1) Qualitative information on consolidated financial results

During the second quarter of the current consolidated fiscal year, the Japanese economy, despite the advancement of restoration of the supply chain, which had been severely damaged by the Great East Japan Earthquake, as well as some signs of recovery in personal consumption, is still experiencing an uncertain condition on fears regarding the power supply and uneasiness about radioactive materials following the disaster, in addition to the effects of the prolonged surge of the yen.

In terms of the global economy, the U.S. suffered a deterioration of business confidence due to the high unemployment rate and a slowdown in personal consumption. Europe was facing fears that financial problems in Greece, Spain and Italy would have a ripple effect on the global financial crisis, while Asia enjoyed continuous economic growth in China, with signs that growth is somewhat slowing down.

Under these circumstances, as consolidated results for the second quarter of the fiscal year, we recorded sales of 271,774 million yen, up 34,546 million yen year-on-year; operating income of 6,355 million yen, up 3,040 million yen year-on-year; ordinary income of 5,280 million yen, up 4,596 million year-on-year, and net income of 2,073 million yen, up 3,395 million yen year-on-year.

Business operations are summarized as follows.

(i) Marine Products Business

The Marine Products segment is engaged in the fishery, aquaculture, and fish processing and trading businesses.

<Overview of the second quarter of the consolidated fiscal year>

In the Marine Products business, sales in the amount of 113,058 million yen (up 32,238 million yen year-on-year) and operating income of 1,389 million yen (up 2,613 million yen year-on-year) were recorded.

Fishery Business: Revenue increased, but income decreased year on year.

- In South America, the catch quota of major fish was reduced in Chile, and fish catches were down in Argentina.

Aquaculture Business: Both revenue and income increased year on year.

- In Japan, sales volume increased in yellowtail and bluefin tuna aquaculture businesses, while fish prices rose.
- In Asia, improvements in Indonesian shrimp aquaculture business did not advance.
- In South America, sales volume increased and fish prices maintained high levels in Chile's salmon/trout aquaculture business.

Fish Processing and Trading Business: Both revenue and income increased year on year.

- In Japan, prices of fish paste (surimi) fell for Nippon Suisan Kaisha, Ltd., while sales of salmon/trout were strong.
- In North America, the catch quotas for Alaska Pollack increased, which resulted in increased production of fish paste (surimi) and fillets, and sales of fish roe were also strong.
- In South America, Netuno International S.A. (Note 1), and in Europe, Nordic Seafood A/S (Note 2) became consolidated subsidiaries.

(ii) Food Business

The Foods segment is engaged in the food processing and chilled foods businesses.

<Overview of the second quarter of the consolidated fiscal year>

In the Foods business, sales in the amount of 132,680 million yen (up 987 million year-on-year) and operating income of 2,684 million yen (up 196 million yen year-on-year) were recorded.

Food Processing Business: Both revenue and income increased year on year.

- In Japan, although the Onagawa Plant and other sites were affected by the Great East Japan Earthquake, the Nissui Group strived to recover the product supply through the transfer of production to other plants. Frozen prepared foods that feature easy cooking were recognized again because of the effects of energy-saving efforts in the summer and for other reasons, resulting in steady sales in frozen prepared foods for household use, such as champon noodles and those for commercial use, such as processed chicken products, while fish sausage and ham did not perform well due to the intensification of market competition.
- Although companies engaged in frozen prepared foods for commercial use in North America performed poorly due to the effects of the sluggish food service industry, those engaged in frozen prepared foods for household use in North America and Europe posted increased revenues.

Chilled Foods Business: Both revenue and income increased year on year.

- In Japan, revenues grew as sales of noodles and chilled lunch boxes increased partly because the convenience of convenience stores was recognized.

(iii) Fine Chemicals Business

The Fine Chemicals segment is engaged in the manufacture and sale of pharmaceutical raw materials, functional raw materials (Note 3), functional foods, pharmaceuticals, and diagnostic products.

<Overview of the second quarter of the consolidated fiscal year>

In the Fine Chemicals business, sales in the amount of 12,897 million yen (up 340 million year-on-year) and operating income of 3,216 million yen (up 453 million yen year-on-year) were recorded.

Fine Chemicals business: Both revenue and income increased year on year.

In Japan, an increase in revenue was posted as a result of accelerated sales of pharmaceutical raw materials and functional materials for Nippon Suisan Kaisha, Ltd. under the influence of the Great East Japan Earthquake. In addition, the diagnostic medicines business also performed well for Nissui's consolidated subsidiary, Nissui Pharmaceutical Co., Ltd.

(iv) General Distribution Business

The General Distribution segment is engaged in the cold storage, transportation and customs clearing businesses.

<Overview of the second quarter of the consolidated fiscal year>

In the General Distribution business, sales in the amount of 6,058 million yen (up 227 million year-on-year) and operating income of 698 million yen (down 6 million yen year-on-year) were recorded.

General Distribution business: Revenue increased, but income decreased year on year.

- In Japan, despite posting decreases in revenue in the North eastern part of Japan caused by the effects of the Great East Japan Earthquake, increases in revenue were posted overall in the cold storage business as a result of increases in the volume of inbound storage in the Tokyo metropolitan area. Revenue also increased in the transportation business, which resulted in the stable performance of the General Distribution business.

(Note 1) The company was incorporated in May 2010 and started operation in September of the same year. It is headquartered in the city of Recife, Pernambuco state, Brazil. It is engaged mainly in aquaculture and the manufacture and distribution of precooked frozen seafood.

(Note 2) The company is headquartered in Hirtshals, Denmark and engaged in the distribution of marine products and processed marine products all over Europe with the exception of Spain and Portugal. Formerly accounted for under the equity method, the company became a consolidated subsidiary in August 2010 following the acquisition of its entire shares by the Company.

(Note 3) Functional raw materials consist mainly of EPA, DHA, glucosamine, cholesterol, and orange roughy oil, which are used primarily as ingredients in foods and cosmetics.

(2) Qualitative information on consolidated financial position

State of assets, liabilities and net assets

Assets

Current assets increased by 4.1% compared to the end of the previous consolidated fiscal year to 198,798 million yen, mainly as a result of an increase in notes and account receivable-trade by 2,992 million yen, as well as an increase in merchandise and finished goods by 5,329 million yen.

Noncurrent assets increased by 0.6% compared to the end of the previous consolidated fiscal year to 210,113 million yen. As a result, total assets increased by 2.3% compared to the end of the previous consolidated fiscal year to 408,911 million yen.

Liabilities

Current liabilities increased by 6.8% compared to the end of the previous consolidated fiscal year to 202,926 million yen, mainly as a result of an increase in short-term loans payable by 8,444 million yen.

Noncurrent liabilities decreased by 3.2% compared to the end of the previous consolidated fiscal year to 134,432 million yen, mainly as a result of a decrease in long-term loans payable by 4,534 million yen.

As a result, total liabilities increased by 2.6% compared to the end of the previous consolidated fiscal year to 337,359 million yen.

Net assets

Total net assets increased by 744 million yen compared to the end of the previous consolidated fiscal year to 71,551 million yen. This was due mainly to the recording of 2,073 million yen in first quarter net income and the increase of 1,052 million yen in foreign currency translation adjustment, and the decrease of 1,382 million yen from the payment of dividends.

(3) Qualitative information on consolidated forecasts

There was a difference between the consolidated financial forecasts and actual results for the second quarter of consolidated fiscal year 2011. No changes have been made at this point in time to the full-year financial forecasts that were released previously. Meanwhile, in case a necessity to make revisions occurs in accordance with future trends in performance, the Group will promptly release an announcement.

2. Matters regarding summary information (Others)

Not applicable.
